[UX Case Studies](#) • [Design Systems](#) • [Interactive Prototypes](#)

Open to UI/UX Designer, Product Design Intern, and Junior Product Designer roles.

SUMMARY

UI/UX Designer with 1.3 years of experience designing fintech and SaaS products focused on usability, accessibility, and scalable product experiences. Skilled in end-to-end product design, user research, wireframing, prototyping, design systems, and developer handoff with strong product thinking and collaboration across development teams.

EXPERIENCE

Product Designer (UI/UX) <i>Dzinemakers UI/UX Studio</i>	Apr 2025 – Present <i>Chennai, India</i>
- Designed scalable fintech dashboards with auto layout and design tokens, improving task completion speed by 20% - Built high-fidelity prototypes with clear interaction flows in Figma, reducing developer handoff friction by 30% - Conducted user research, journey mapping, and usability testing across 3+ projects to improve engagement metrics - Collaborated with engineering teams ensuring accurate responsive UI implementation across mobile and web - Maintained reusable component libraries and design systems for consistent, scalable product UI	
UI/UX Design Intern <i>MakeMyReach</i>	Jun 2024 – Aug 2024 <i>Remote, India</i>
- Redesigned mobile navigation and onboarding flows using information architecture principles, reducing drop-off by 12% - Designed wireframes and interactive prototypes with accessibility-focused interaction patterns for financial workflows - Built reusable UI component libraries, reducing future design iteration time by 25%	

EDUCATION

B.Sc Information Technology — C.P.A College, Madurai Kamaraj University	2021 – 2024 <i>Tamil Nadu, India</i>
--	---

PROJECTS

Arihant Fintech App Designed an accessibility-first fintech mobile experience simplifying investment tracking and improving usability through intuitive interaction flows and visual hierarchy.	<i>Figma · Accessibility · Interaction Design · Mobile</i>
NexaHR Dashboard Built a responsive SaaS dashboard using design tokens and auto layout for 1,000+ users. Reduced navigation steps, improving task completion efficiency and information discoverability.	<i>Figma · Design Systems · Auto Layout · SaaS</i>
HealthTrack Mobile App Designed a patient-facing healthcare app with simplified booking flows and accessible UI using journey mapping and design thinking to improve usability for non-technical end users.	<i>Figma · Journey Mapping · Design Thinking · Accessibility</i>

ACHIEVEMENTS

- Designed 10+ mobile and dashboard UI concepts for fintech and SaaS products
- Improved workflow efficiency and usability through accessibility-focused design decisions across projects
- Built reusable component systems reducing design inconsistencies across product teams
- Delivered responsive UI solutions optimized for developer handoff and product scalability

SKILLS

UX: User Research, Wireframing, Prototyping, Journey Mapping, Accessibility, Usability Testing, Design Systems

Tools: Figma, FigJam, Adobe XD, Photoshop, Framer, Miro

Frontend: HTML, CSS, JavaScript, Bootstrap, Angular, React

AI TOOLS

ChatGPT, Claude AI, Figma AI, Uizard, Adobe Firefly, GitHub Copilot, Cursor AI

UX METHODS

User Interviews, Competitive Analysis, Persona Creation, Journey Mapping, Information Architecture, Wireframing, Prototyping, Usability Testing, Accessibility Audits, Design Systems

CERTIFICATIONS

Google UX Design Professional Certificate — Coursera (2025)

Figma UI/UX Design Essentials — Udemy (2024)
